

Parameta Solutions Indices

Develop new instruments, better track performance, and gain exposure to often inaccessible asset classes with our indices solutions – built on rich data from the TP ICAP ecosystem.

Key Benefits

- **Enhance Decision Making:** Turn insight into action by leveraging our indices for risk premia investing, asset liability management, or robust OTC derivatives market benchmarking.
- **Forecast for Market Uncertainty:** Make more accurate predictions of future market behaviour with our model-free spot and forward implied volatility indices across multiple markets and asset classes.
- **Capitalize on Opaque Markets:** Unlock opportunity in traditionally opaque and illiquid markets with the clarity and transparency provided by indices. Create derivative building blocks based on independent and observable pricing.

Available Indices

- **Breakeven Inflation Swap Index Family:** A family of indices tracking the performance of a monthly rolling strategy investing in inflation swaps of different tenors.
- **Interest Rate Swap Volatility Indices:** A forward-looking implied volatility measure for the interest rate swap markets.
- **Global LNG Basis Indices:** A powerful suite of indices to track price differentials between the three major markets, developed in partnership with General Index.
